Pablo Picasso, 1907

AFTERWORD

No one *needs* this book -
but lucky for you, it exists.

After spending seven years on *The Micturating Angel*, a very complicated and elaborate collage project (c. 300 pages/ 3000 collages), it was fun to do something stupid and just bad.

In my teens I used to visit \$2 shops a lot, just to find stupid, pointless, weird stuff. Sometimes these were books, which always had me asking: why does this exist? Why make/ write this? Who would read it? But despite the puzzlement, I'd be fascinated by their very existence and that there was in fact a world out there with people who enjoyed working on / reading these books, no matter how inane or bizarre.

So I made a book like that.

I would be honoured if a chain discount store (Arthur Daley, you reading this?) carried this book. It is THAT dumb and pointless - but obviously someone (moi) has put time and effort into actually making it.

A one-joke book*.

And if you think this is bad: the original idea was to make it even worse: simply print images of nudes and Lynch, cut them out in a hurry and sticky-tape them together!

You're welcome.
